PROFESSIONAL SUMMARY

Computer Science student with hands-on experience building and shipping real-world web applications for paying clients. Passionate about creating fast, interactive, and visually polished user experiences. Proven ability to deliver complete projects from concept to launch.

PROJECTS

Solar Lead Capture

TypeScript, React

- Co-developed a full-stack web application (3-person team) with a React frontend, user authentication, and database-integrated dashboard for managing leads and project data.
- Built an OCR pipeline using Google Vision API to extract customer data from electricity bills; integrated DeepSeek API to auto-generate solar proposals at ~90% accuracy.

AgeandTech Company Website

WordPress · Freelance, paid client

- Built an interactive product configurator where visitors select custom options and see a live-updating product preview in real time.
- Created all product imagery and optimized site SEO via Yoast SEO; resolved non-indexed pages through Google Search Console.

AI Takhasosy Manufacturing Website

Wix · Freelance, paid client

- Designed and developed a complete business website (Products, About Us, Distributors) with WhatsApp CTA integration and AI-generated product imagery.
- Optimized frontend performance: lazy image loading, extended caching, CSS animation optimizations, and smart image loading.

Conway's Game of Life

Java, IntelliJ IDEA

- Implemented grid-based cell evolution with interactive controls (start/pause/reset, speed), preset patterns, and custom configurations.

EXPERIENCE

Network Engineer

Mar 2025 – Aug 2025

 Advanced Systems and Technologies – Aramco Project

Dammam, KSA

- Managed network infrastructure for an enterprise deployment across 1,800 residential units; configured routers, access controls, and data transmission pipelines.

Tutor

Jan 2024 – Sept 2024

 University of Debrecen

Debrecen, Hungary

- Guided 10+ students in programming fundamentals and database systems.

EDUCATION

Southern New Hampshire University

Jan 2026 – Present

Bachelor of Science in Computer Science

New Hampshire, U.S.A.

Coursework: Computer Security, Machine Learning, Artificial Intelligence

University of Debrecen

Apr 2022 – Apr 2025

Bachelor of Science in Computer Science

Debrecen, Hungary

Coursework: Software Engineering, Operating Systems, Database Systems, Computer Networks

CERTIFICATIONS

- Responsive Web Design — freeCodeCamp
- JavaScript Algorithms & Data Structures — freeCodeCamp
- Google Analytics Certification (GA4) — Google
- Google Professional Certificate – Digital Marketing & E-Commerce (*in progress*)

SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React

Tools: Git, Linux, SQL, Canva, Power BI, n8n

Soft Skills: Adaptable, Solution-oriented, Analytical, Creative
